Description :

PDF-8af6f | In the history of naval warfare probably no type of ship has provided more firepower per ton than the monitor - indeed they were little more than a huge gun mounting fitted on a simple, self-propelled raft. Designed and built rapidly to fulfil an urgent need for heavy shore-bombardment during World War I, they were top secret in conception, and largely forgotten when the short-lived requirement wa... *Big Gun Monitors: Design, Construction and Operations 1914-1945*
